KLAN NOW UNDER WRATH SENTENCE IN WALTON TALK

Governor Demands Citizens Take Law in Hands Against Klan SPEAKS AT MADILL

Denounces Press and Defends Parole System in Same Address

(By the Associated Press)
MADILL, Sept. 8.—A ban on public assemblies of masked men in Oklahoma was declared here today by Governor J. C. Walton.

"From here on there will be no more appearances in public of masked men or masked organizations," the governor asserted, in addressing a crowd at the Marshall county free fair.

Reviewing his record in dealing with organized whippings Governor Walton charged that opposition to his methods, was being instigated by the Ku Klux Klan.

The Klan had been found to be directly responsible for 48 out of 50 floggings in Tulsa county where a state military investigation of mob activities is under way, he declared.

"This kind of a gang J. C. Walton is going to put down," the governor said, "I am going to the limit to put it down."

"If one of the masked men comes to your door after you, turn loose with both barrels of your shotgun and I will pardon you."

The executive's declaration that secret organizations must unmask was interpreted as a reply to the statement in Oklahoma City yesterday of N. C. Jewett, grand dragon of the Oklahoma realm of the klan that "Jack Walton and all his cohorts will never be able to break the power of the Ku Klux Klan in Oklahoma."

MADILL, Sept. 8.—A bitter attack was delivered by the governor on the "poison press" of the state and he defended his pardon and parole policy.

Premium Reid, a Madill negro was saved from a life term at the state penitentiary when Governor Walton put the case to his hearers and asked them to decide Reid's fate.

"I was approached a little while ago in my room at the hotel and told that a negro by the name of Premium Reid was sentenced to 99 years for killing a negro who stole his wife and destroyed his home," said the governor. "If anyone should know if this is right it is you. I am going to take a vote on it right here. All those who want Premium Reid's sentence commuted to two years imprisonment hold up your hands."

Hands were raised in the crowd and when a negative vote was called for only one man, one of the jurors that sat in Reid's case, lifted his hand.

"I hereby commute the sentence of 99 years given Premium Reid to two years," the governor announced.

Turning to the newspaper men Walton said, "You have heard different stories against me from the poison press of this state and the only way I have to answer is to come before you in person."

The major portion of the press he asserted, is against the producers and for the class that is fighting his administration.

"These dirty papers," he said "make trouble for me to explain to my own wife. They are against martial law."

Relating instances where he had been appealed to by victims of mobs Walton declared, "I am against these depredations and I cannot get the people to stand up and face the bullets I will do it myself. The Klan is attacking me now."

TULSA, Sept. 8.—While the chamber of commerce today awaited the exact terms of Governor Walton's purported peace offer to the city the exodus of national guard troops from Tulsa got under way.

The Haskell unit, comprised of 25 men and one officer left for home on an early train.

Military officials could not be reached to say whether other units are to depart in the immediate future.

This step toward demobilization came as a surprise in view of Governor Walton's statement of late yesterday that he contemplated making no change in the local situation.

OKLAHOMA CITY, Sept. 8.—Ouster proceedings against Henry W. Kiskaddon, commissioner of police at Tulsa, will be filed Monday at Tulsa in connection with alleged mistreatment of prisoners by the (Continued on Page Six)

MADDEN HAS PLAN TO REDUCE TAXES

(By the Associated Press)

WASHINGTON, Sept. 8.—Chairman Madden of the house appropriations committee presented to President Coolidge at a conference last night at the White House the details of his plan for an annual automatic reduction in taxes based on the surplus of government revenues over expenditures. He also discussed with the president the general fiscal policy of the government as it may be reflected in legislation to be enacted by the next congress.

The plans worked out by Mr. Madden would provide for a reduction of taxes each calendar year to the amount of the government's surplus in the preceding year. No increase in taxes will be permitted in any year in which the government's income failed to meet expenditures.

COLLEGE TERM OPENS MONDAY

Indications Point to New Enrolment Record Year.

Advance enrollment at East Central State Teachers College indicates a larger fall student body than ever before, according to President A. Linscheid. The enrollment to date is much larger than at this time last year.

Many of the students will enter tomorrow which is the busiest day for the classifying forces of the school. Classes will open on schedule Tuesday morning and the term will be fully begun at that time.

The total enrollment for the fall term last year was 877. That mark will probably be surpassed in a short time as the popularity of the school is growing and its fame spreading throughout the district.

President Linscheid reports that the administration building, which was damaged slightly not long ago by fire, will be in condition for the opening of work this week. Other repairs are progressing satisfactorily and will not interfere with class work.

An interesting new feature of the work beginning this year is the addition of a modern business department, including instruction in shorthand, typewriting, business administration and allied subjects. In this department will be trained teachers who can head such departments in the high schools of the state.

The grade classes have been reorganized so that a junior high school department will be in charge of the seventh, eighth and ninth grades of the training school. Mr. John W. Zimmerman and Miss Stella Watson, who will be in charge of the junior high school, have been taking special work in administration and supervision of this work during the past summer.

All members of the faculty are now here and ready for work. Mr. Linscheid states. There will be new faces among the instructors as about half a dozen additional teachers have been employed to take care of the rapidly increasing enrollment.

Athletic prospects are particularly bright and all indications point to a most successful season of football. More and experienced men are making bids for places on the Tiger team and East Central will be represented by a squad of players of the best quality.

During the vacation week workmen have been employed in repairing the buildings, kalsomining and painting the walls and strengthening the structures. The gymnasium has been entirely rebuilt so as to accommodate larger crowds and leaving the floor clear of the overhanging balcony which in the past has interfered with play.

Celebrations Mark Admission of Irish Free State to League

GENEVA, Sept. 8.—An impressive demonstration of welcome and friendship for the Irish Free State featured tonight's meeting of the league of nations when by unanimous vote of the membership committee Ireland was recommended for admission. On Monday she will become a formal part of the league by the action of the assembly.

There was a warm feeling tonight in the hearts of the Irish delegates. President William T. Cosgrave, minister, and all others, for many nations joined in a spontaneous manifestation of good will and best wishes for Ireland and her future prosperity and happiness.

NEW AGREEMENT ON WAGE SCALE IN MINE PARLEY

Agreement to be placed in Hands of Union Scale Committee

TWO YEAR PERIOD

Ratification of Miners at Convention Last Step To Passage

(By the Associated Press)

HARRISBURG, Penn., Sept. 8.—Anthracite operators and miners at nine o'clock tonight signed a new wage agreement. It was expected that the new agreement would be presented immediately to the union scale committee whose members had been held in Harrisburg awaiting the action of the conference.

The proposed new contract will cover a period of two years. The scale committee was called to meet immediately to approve it.

The agreement adopted made the next contract expire August 31, 1925. Besides approval by the scale committee it requires ratification by the miners at a convention of the three mine workers districts in the anthracite field before the present suspension can be terminated.

Convention For September

Union leaders said the tri-district convention would probably be called for September 17 in Scranton. The new contract, if the agreement is ratified by the convention, will be signed in Harrisburg. Gov. Pinchot said the principals would return here for the purpose. Union officials said if the program goes through the men probably will be back at work September 19 or 20.

Provisions of the new agreement drawn up in conference which continued almost throughout today were based generally upon the four points of settlement plan put forward by Governor Pinchot, who called representatives of the operators and miners together in Harrisburg last week. These four principles include a flat ten percent increase for all mine work; establishment of an eight hour day; recognition of the union; and of the principle of collective bargaining.

TWO CONVENTIONS FOR MEXICAN CLAIMS NAMED

(By the Associated Press)

WASHINGTON, Sept. 8.—Two conventions providing machinery for the adjustment of claims between the United States and Mexico were signed today, one in Mexico City and the other at the state department here by plenipotentiaries of the two governments. When ratified by the United States senate and the Mexican congress the covenant will lead to the creation of a commission and payment of claims aggregating millions of dollars for damages sustained in the last half century.

One of the conventions provides for a commission composed of one American and one Mexican and an umpire to adjust claims of the United States and Mexican citizens which have arisen since July 4, 1868. The commission will meet in Washington within six months after the convention has been ratified. A small commission under a special claims pact consisting of a similar membership and having to do with claims arising from revolutionary bandits and government operations in Mexico will meet in Mexico City within the same period of time fixed for the general commission.

Pacific Mail Liner Grounded off Coast At Point Bennett

(By the Associated Press)

LOS ANGELES, Sept. 8.—The Pacific mail liner Cuba went ashore at Point Bennett on San Miguel Island this morning but the United States destroyer Reno is believed to have rescued most of the passengers and according to a wireless message is trying to pick up others.

The following message was sent to Admiral Coozly of the United States fleet from the Reno.

"Have located steamer aground of Point Bennett on San Miguel Island. Have anchored and am sending landing parties ashore for remaining survivors. Cuba on rocks and apparently filling fast."

In no other substance is there so great a value in so small a bulk as in radium.

Pastor Totes Gun to Bring Justice Home

Francis boasts of a knight in two roles—a minister of the gospel and minister of the law.

N. O. Hornsby, Baptist pastor, preaches in his pulpit on Sundays and rounds up booze makers and other violators of the law when he is not at work in the capacity of church leader.

Recent exploits in the interest of law enforcement in the Francis community have convinced would-be law violators that the minister-deputy sheriff is not timid in the use of his six-shooter when it becomes necessary for use in the grim duties of law enforcement.

Friends of the pastor, knowing of his desire to take an active part in safeguarding the law in the Francis community, sought a commission for him from the local sheriff's office recently and obtained permission for his activity in that section in the interest of law and order.

Hornsby conducted a raid near Francis Tuesday and brought about the arrest of George Bingham, R. E. Daniels, W. M. Rich and W. C. Chandler and the confiscation of several gallons of whisky, a quantity of mash and a still.

GRAND JURY TO PROBE AFFAIRS

Roff Mentioned as Center of Investigation for Jury Session

Again seeking the cause for alleged turbulent conditions in Pontotoc county, a grand jury will grind out all available information in its session beginning here Wednesday.

Twenty-four jurors have been summoned to duty for Wednesday morning and from that number twelve will be named to conduct the probe of conditions in Pontotoc county. While names of jurors had been listed on the grand jury panel for services Wednesday morning they were not available for publication Saturday because return service on summons had not been filed in district court.

While conditions in general will be investigated in Pontotoc county alleged lawless conditions at Roff will bear the brunt of the secret investigation it was authoritatively stated in official circles Saturday.

Names of jurymen for grand jury service were selected several days ago but definite action was not taken in issuance of the order for grand jurymen until this week.

GERMANS MAY BE FORCING LANDINGS

Thirty French Planes Forced to Land on German Soil Recently.

(By the Associated Press)

LONDON, Sept. 8.—Some secret means discovered by the Germans for damaging airplanes in flight is believed, says the Daily Mail, to be the explanation of nearly thirty forced landings by French machines in German territory since the Ruhr occupation.

Gives an air expert's theory that by some wireless way known only to the Germans the magnets are put out of action. Another theory is that rays affecting certain metals in vital parts of airplanes are directed to the machine by reflection, it being noticed that forced landings occurred generally on fine days.

Germany confiscates all machines making forced descents in her territory.

TWO TRAGEDIES FOLLOW IN RACE TRACK ACCIDENT

(By the Associated Press)

WHEELING, W. Va., Sept. 8.—Mike Mountain, a Canadian jockey, was fatally injured in one of the races at the West Virginia state fair today when his mount, Mayme Turn, stumbled and fell. He died later from a fractured skull. In another race Tactless, owned by Mrs. A. Tingle of Baltimore, fell dead fifty feet from the finish. Jockey G. Campbell sustained a concussion of the brain.

During the World War there were but 227 deaths from fevers in all the United States armies.

SIX ARRESTS IN MILITARY PROBE IN TULSA COUNTY

Owasso Contributes share Of Complaints for Alleged Whippings

TULSA OFFICIALS HELD

Governor and Committee of Tulsa Clubs Fail to Reach Agreement

(By the Associated Press)

TULSA, Sept. 8.—An information charging six residents of Owasso, a small town in northern Tulsa county, with rioting, was filed late today by county attorney John M. Goldsberry. A second information contained three names, one repeated for the first list, the information is based on alleged floggings of about a year ago.

Named in the first information are C. E. Dixon, an official of the Owasso bank, D. E. Does, Robert Yundell, D. C. Davis, Floyd Fox and Ural Stafford. They are accused of conspiracy to commit riot, July 25, 1922, by attempting to abduct and whip E. L. Roe. The information is sworn to by Roe, Mrs. Roe and W. P. Dodson.

Dixon is named in the second information together with persons designated as John Doe and Richard Roe and others. They are charged with committing riot on July 1, 1922, while they were disguised, by kidnapping W. H. Craighan of Owasso, spiriting him out of town and administering a beating.

Craighan's name alone appears in the second information as witness. All six were arrested tonight and released on \$1500 bond.

Testimony on which the information was based was developed, it is stated, through the military inquiry.

Witnesses in large numbers were examined by the military court today but adjutant General Markham would make no announcement further than to say that satisfactory progress is being made.

A second angle of the martial law was the failure of the expected letter from Governor Walton to arrive, setting forth the assurances he demands before troops could be removed. Both H. O. McClure, president of the chamber of commerce, and C. B. Douglas, who was a member of the chamber of commerce committee to interview the governor, expressed regret that the letter had not arrived. Mr. Douglas, however, expressed the belief that level heads would be able to work out a plan whereby the governor would be assured that the law would be observed. A company of guards was returned to Haskell today to make way, military authorities said, for a new detachment.

The third angle given the situation today was receipt of word from Oklahoma City that ouster proceedings would be filed against Police Commissioner Harry W. Kiskaddon and that charges of brutality would be filed against four members of the police force.

MEMORIAL STAMP QUOTA SENT LOCAL POSTOFFICE

Ada has received her share of Harding Memorial Stamps, according to the announcement of post office officials here Saturday.

Thirty thousand stamps, one half of the requisition petitioned for by the local office, found a place in the postoffice here for immediate sale as a part of the memorial fund to be collected by the United States treasury.

Ada's quota, all of two cent value, will remain on sale at the local office until the entire amount is collected.

The stamp of dull gray tint is almost identical to the color of the seven-cent stamp now used by the government. The stamp bears the likeness of the deceased president.

The Harding Memorial Stamp is sold from the postal department on Sept. 1 after the first quota was placed on sale in Marion Ohio, the home of President Harding.

FIVE CONVICTS ESCAPE FROM OHIO PENITENTIARY

(By the Associated Press)

COLUMBUS, Ohio, Sept. 8.—Five convicts escaped from the Ohio penitentiary here shortly after noon today after scaling the walls which surround the structure. All prisoners and details of police immediately began combing the vicinity of the penitentiary in search of the men.

ADA CLINIC PLANNED BY LOCAL DOCTORS

Receiving added impetus from the boon of better hospital conditions for Ada, four Ada doctors have announced a partnership in a clinic to be opened here in the Simpson building October 1.

Doctors M. L. Lewis, Katherine Brydia, W. D. Faust and Sam A. McKeel will be connected with the new institution to be known as the "Ada Clinic."

The new institution will establish spacious quarters to receive patients for medical and surgical attention. An attendant will be in charge of a joint reception room and doctors interested will maintain separate quarters.

Advantages of the clinic as outlined by those interested will include the thorough attention of four doctors instead of one. Practically all phases of medicine and surgery will be given the special attention by the proposed clinic.

PEACE TERMS OF LEAGUE ACCEPTED

Italy Agrees to Abide by Decision of Council In Balkan Row

(By the Associated Press)

ROME, Sept. 8.—Italy accepts the terms of the council of ambassadors and agrees to evacuate Corfu and adjacent islands when Greece has satisfied all of Italy's demands for reparation.

ROME, Sept. 8.—Greece has sent an ultimatum to Albania demanding delivery within five days of those responsible for the murder of the Italian minister, according to Greek newspapers.

ROME, Sept. 8.—The Italian consulate at Patras, Greece, was burned by a mob during an anti-Italian demonstration, says a dispatch to a local newspaper from its correspondent at Corfu who received the news from boatmen arriving from Patras.

The Italian colony, numbering five thousand persons organized a counter-demonstration and there were victims on both sides. Police and the military surrounded the quarter for its protection.

PARIS, Sept. 8.—The proposals contained in the note which the inter-allied council of ambassadors has sent to Greece are virtually identical to those of the original ultimatum dispatched to Athens by Premier Mussolini of Italy. All the penalties the council would impose are in conformity with the Italian demands, except that the Hellenic fleet shall salute the flags of the three allied nations instead of Italy alone and that the highest Greek military authority shall present his government's regrets for the Janina murders to the three allied representatives in Athens.

STONEWALL FAIR END OF SERIES

Livestock Exhibit Especially Good. Large Crowd In Attendance

The fair at Stonewall Saturday marked the end of the week of township fairs for Pontotoc county. Reports from Stonewall are to the effect that the fair was up to the standard in the matter of exhibits and that the crowd was larger than usual.

The livestock exhibit was said to have been considerable in point of number and good quality. Quite a variety of breeds was displayed in hog and cattle lines.

The surprising thing about the township fairs this year has been the quality of farm and garden products, everything being much better than was thought possible after the long drought. This fact makes the county fair appear more promising.

HOMINY RESIDENT FOUND DEAD AFTER LONG SEARCH

PAWHUSKA, Sept. 8.—Search for Richard F. Hughes, aged resident of Hominy, who disappeared May 8, 1922, ended today with the finding of a skeleton in a rocky obscure pasture twenty miles south of here. Bits of clothing, a finger ring and the teeth identified the skeleton as that of Hughes. It is believed that he died of exposure.

WEIRD TALES OF SUFFERING MARK JAPANESE QUAKE

Restoration of Communication Adds New Reports on Loss of Lives

FOREIGNERS INCLUDED

Accounts of Suffering Now Being Related by Survivors

Stories of the highest mountains that slid into the valleys; of huge waves that swept seaward hundreds of bathers at coast resorts; a Yokohama hotel that literally sank into the earth and other spectacular incidents observed survivors of the great disaster are being given to the world as communication in and out of Japan is gradually restored.

The Tokio correspondent of the Chicago Tribune reaching Kobe says that 500 foreigners were killed in Yokohama; the earthquake and fire left the foreign residential section in ruins; dead bodies were everywhere when the fire had passed. The hotels of the port city were obliterated. Of the 200 guests in the Oriental Palace hotel, only a few escaped. The United club, the Court, Cherry Mount and Bluff hotels also were wrecked with losses of life. The last three, situated on the heights toppled into the ruins at the base of the bluff.

Thomas D. Cochrane, an American motion picture man, was at Miyakoshi, a mountain resort, with his family when the first quakes came. Great slides occurred in the mountains, he said; roads were wiped out and houses demolished.

In Tokio 135,000 persons are without shelter but order prevails. There are no further rumors of cholera.

The loss of life in the capital was not as large as first reported, according to the first message sent over the re-established line from Tokio to Kobe. Probably 10,000 persons lost their lives in the up-town section, most of which was spared.

London hears that the number of foreign dead will approximate one hundred and that half of this number are British.

Secretary of Commerce Hoover believes that the material losses in Japan have been greatly overestimated and says it is absurd to say that the damage will amount to five billion dollars.

Nearly half of the \$5,000,000 quota which the American Red Cross has set as its goal for Japanese relief has been raised.

Doris Babbitt Killed.

WASHINGTON, Sept. 8.—A dispatch to the Japanese embassy from Tokio today said that the entire personnel of the American embassy was safe except Miss Doris Babbitt, daughter of Ellwood G. Babbitt, acting commercial attaché. She is said to have lost her life at Yokohama.

200 Foreigners Killed.

WASHINGTON, Sept. 8.—Two hundred foreigners were killed at Yokohama according to the navy department's first direct word from that port received today in two messages from Admiral Anderson, commander in chief of the Asiatic fleet. One hundred thirty foreign refugees, most of them Americans and Englishmen, he reported were at Hakone and others were arriving at Kobe.

New York, Sept. 8.—Shortage of food and water in Yokohama is "unspeakable" and thousands of refugees in the streets "opened their mouths and attempted to drink the falling rain," said a message received today by the Japanese Times from their Japanese telegraph agency. Since the arrival of army units martial law has been enforced so strictly throughout the devastated area that there now is no looting as had been reported previously. Retail prices have returned to almost normal in Tokio, the message said.

The message also confirmed reports that Oshima said to have been the center of the quake, had been submerged and "rumors circulated that from south of Hōjō around Jojo Bay was also submerged." Hōjō, members of the Japanese Times staff said, was a popular summer resort housing some 30,000 to 40,000 persons.

WASHINGTON, Sept. 8.—A six-mile gale from the sea followed the fire and quake in Japan and fanned the flames so that few of the injured escaped. Admiral Anderson, commander of the Asiatic fleet, said in a message received here tonight by the navy department Those who sought to escape were driven into the bay, he said, and many perished there. He named sixteen Americans who were killed in Yokohama, most of whom (Continued on Page Three)

ADA CLUB READY FOR SERIES HERE

Fort Worth Club here for Series Beginning Sunday

Local baseball fans will gather at the ball park this afternoon at 3:30 to see how the local amateurs stack up against a like team from another state. At that time the first of a three-day series of games with an independent team from Fort Worth, Texas. This team is composed largely of players from the Cotton State League, recently disbanded.

Today's game will be called at 3:30 and it is probable that the two other games will be begun at a later hour for the benefit of the business men of the city.

Williams and Blankenship will hold down the twirling positions to two of the games and Manager Green is uncertain who will pitch for the third game as yet. The rest of the lineup will be practically the same as for the past games.

Green plans to secure games for the remainder of this month. After the series with the Fort Worth team the Ada players will probably go to Healdton for a match. After that it is planned to bring teams here for the remaining games, probably from Durant and Denison. Most of the smaller teams of the state have already disbanded, making it difficult to match the local team with others of its class.

NORTHWESTERN U. LAD CLAIMS TARGET RANGE HONOR

CHICAGO, Sept. 8.—Clark Roberts Pace of Whitehall, Montana, a senior at Northwestern University and captain of the Northwestern Rifle team, while attending the R. O. T. C. camp at Camp Custer, made the highest score on the target range of any of the Northwestern men. After the camp was over he returned to Montana and went into camp with the Montana National Guard. There he was high man on the winning team, tied for first place in the "Governor's Match" and won the gold medal at rapid fire. Pace is now at Camp Perry, O., as a member of the Montana team.

Mit Artists Will Give Exhibition Workout Monday

Ring fans will have an opportunity Monday night to see the principals of the bout to be staged here Wednesday in action, as an exhibition program has been arranged that includes Brown and Sparks in short workouts.

Arch Cooper and others of fistic ability will take four round workouts, which will include shadow boxing and rope skipping by the mit slingers.

In all, eight four-round exhibition bouts have been arranged, two of them colored.

The program will begin at 8:30 in the armory building on north Broadway. Prices will be ten cents for children and twenty-five for adults.

YESTERDAY'S RESULTS

American League
Chicago 3-0, St. Louis 7-1.
Cleveland 4, Detroit 3.
Washington 4, New York 0.
National League
Boston 4-4, Brooklyn 7-5.
St. Louis 5-13, Cincinnati 4-4.
Pittsburgh 4, Chicago 0.
New York 9, Philadelphia 6.
Western League
Des Moines 5, Wichita 9.
Sioux City 11, Tulsa 5.
Omaha 8, St. Joseph 5.
Denver 1, Oklahoma City 9.
Western Association
Enid 11, Springfield 7.
Okmulgee 7, Ardmore 12.
Fort Smith 7, Joplin 6.
Southwestern League
Salina, Coffeyville 6.
Topeka 4, Sapulpa 3.
Hutchinson 20, Muskogee 2.
Independence 2, Bartlesville 3.
Texas League
Dallas 3, Galveston 1.
Fort Worth 1, San Antonio 6.
Wichita Falls 4, Beaumont 2.
Shreveport 2-4, Houston 9-3.

OBITUARY

Vernon Wood, eighteen-month-old son of Mr. and Mrs. William Sarrett died at the home of Homer Sarrett, 609 north Mississippi at 7 p. m. Saturday. Funeral services will be held at the Sarrett home at 3 p. m. today. Interment in Rose-dale cemetery.

Read all the ads all the time.

DEMPESEY'S RISE TO FAME SUDDEN

Champion Reaches Pugilistic Height in Four Years In Ring

(By the Associated Press)
NEW YORK, Sept. 8.—Jack Dempsey, matched to fight Luis Angel Firpo for the world's heavyweight championship at the Polo grounds September 14, came to the front more rapidly than any other ring champion—actually punching his way to a title in less than four years as a result of his boxing power developed in no-decision bouts. After wading through all opposition, Dempsey's quick knockout over Fred Fulton, the giant Rochester, Minn., plasterer, virtually removed the last obstacle in his path for a championship match with Jess Willard.

Dempsey met Fulton, then considered as a possible contender in Jersey City in 1918, and flat-tended him in the remarkably short time of 18 seconds.

Dempsey's decisive victory over Willard in Toledo, July 4, 1919 for the championship stands out as one of the most severe beatings ever administered to a heavyweight title holder. The very first punch that Dempsey sunk into Willard's huge frame, a savage right just under the heart, was the blow that started him to defeat. The former Kansas farmer, beaten down with vicious punches to the head, until both eyes were closed and his face swollen to the size of a toy balloon survived three rounds before his seconds tossed in a sponge.

Dempsey's ability to punch Willard into submission so decisively won him not only the admiration and respect of ring followers, but the expert's acclaim as one of the greatest hitters who ever held the heavyweight title.

The champion carries a knockout smash in either hand; hits as hard with his left as he does with his right, and always seems to be ready because of his peculiar swinging style, to whip over a terrific punch from any angle.

Back of Dempsey's right is tremendous power, but his left hook probably is an almost equally effective blow. It seldom travels more than a foot, but it carries the force of a falling skyscraper. Dempsey hooks the punch from the shoulder with a slight twist of his powerfully muscled forearm. He rarely swings a punch; always hooks them across. It is not uncommon to see the title holder lead with his right in an attempt to get his opponent into position for a left hook.

The champion is master of every trick in the pugilistic bag. One of his favorites is to get his opponent off balance while coming out of a clinch, thus making him an easy target for a left hook. Dempsey accomplishes this trick by hooking his right gloved fist back of his foe's left elbow, and with a quick jerk, twisting him around and off balance.

Since Dempsey won the title Tommy Gibbons of St. Paul, the champion's opponent in a 15-round battle at Shelby, Mont., last July 4, is the only man who ever succeeded in staying the limit with him in a decision match. Gibbons succeeded chiefly because, in ring parlance, he "outsmarted" the champion at times; outboxed him in spots, and held on with such tenaciousness in the last three rounds that the referee was constantly breaking them; rather, pulling the St. Paul challenger out of the clinch.

Since winning the title, the champion's knockout victims were Billy Miske, Bill Brennan and Georges Carpentier. Brennan gave him a desperate battle, going 12 rounds before taking the count in Madison Square Garden. Miske had been counted upon to give him a fight, as he had in the other at six rounds, but he fell a victim to Dempsey's blows in three rounds. Carpentier lasted four.

Dempsey holds the distinction of boxing before the greatest crowd that ever saw a boxing contest and of drawing the biggest gate in ring history. More than 90,000 persons were jammed into the big bowl, on Boyle's Thirty Acres in Jersey City the afternoon of July 2, 1921 when he knocked out Carpentier.

The gate receipts of what was classed as the "Battle of a Century" were more than \$1,500,000.

"The Night Rose," a new Goldwyn melodrama from the pen of the famous novelist, Leroy Scott, will be shown at the American theatre, for two days, beginning Monday.

RUMANIAN QUEEN SEEKS TO ACT AS PEACEMAKER

(By the Associated Press)
LONDON, Sept. 8.—Queen Marie of Rumania, who came unobserved to England from the south of France early this week is hurrying back to the Balkans in an effort. It is understood to extricate Greece from her predicament, which is especially momentous to Marie for her daughter and son-in-law are the heads of that troubled country. The Rumanian queen, is said to feel that it international bodies such as the league of nations, and the council of ambassadors, or separate negotiations between Greece and Italy fail to settle the dispute, the governments at Athens and Rome may be willing to listen to a woman's voice. Marie has been following all the developments of the quarrel, and felt confident that it could be settled by diplomacy. It was not until the Italian squadron bombarded Corfu that she decided to abandon her vacation in England and France and set out immediately for the seat of trouble.

Enroute to the Balkans, she will stop at several European capitals and strive to induce the governments to prevent Italy from taking further warlike measures. She will see her daughters, the Queen of Yugoslavia and the Queen of Greece and also will seek to advise and encourage young king George of Greece, whose position never has been secure. It also is said that she will use her influence with King Emmanuel of Italy to settle the dispute without further resort to violence.

GRID CREWS OUT FOR TIGER TEAM

Wealth of Material Facing Coaches for Prospective Grid Season

With an average squad out each day of the past week Coach M. Z. Thompson of the college is confident that with the beginning of actual team practice tomorrow he will have a squad numbering at least sixty candidates for places on the Tiger team this season.

Practically every man of last year's team will be working for a berth on the varsity, and Coach Thompson is beginning to fear that all who won their letter last year will not repeat the performance this year.

There is a wealth of experienced players available, according to Miam and Thompson. The candidates include plenty of weight and lots of speed. When the Tiger clan frolics out on the field for their initial appearance in public those who will mingle with East Central's hereditary enemies will represent the pick of a husky squad.

The spirit of the players is excellent, Thompson says, and all are working eagerly to get the start on their competitor for places on the first eleven.

A number of those out for the team this year are old timers who have played the earlier years of East Central's existence and who have returned since the addition of the last two years of college work to acquire more gridiron fame before retiring from active competition.

There are high-school graduates of last spring anxious to get into their molasses and compete with older heads in a bigger field of football than their previous experience. These would be Tigers come from all parts of the state to get their college experience and training.

Last but not least there are plenty of the green variety who will learn to properly don a football suit and be initiated into the mystic of handling the elusive pigskin. These have yet to know what a hard taskmaster the gridiron game is but when this is learned they will have become so inoculated with football spirit that they will not be willing to stop.

With a full schedule for the Tigers already arranged; with new equipment, and with competent coaches all East Central football fans look forward to a highly successful year for the Tigers, and there are those whose hopes soar even to the state championship, an honor won only once by an East Central football team.

NOTED WRITERS' LOVE PACT RESULTS IN MANY SUICIDES

(By the Associated Press)
TOKIO, Aug. 7.—The recent double suicide of Mr. Arishima, one of Japan's foremost novelists and of Akiko Hatano, a young married woman magazine writer as a result of a love affair and death pact continues to hold the attention of the Japanese public. This is due not merely to the prominence of the pair or to their tragic deaths, for suicides of prominent persons in this country are not unusual.

It is the imitators of the famous couple that are keeping interest alive. Many couples, for the most part obscure, are seeking reflected glory from the main event by imitating the writers' example.

The growth of western philosophy however, is gradually turning the public against suicide under any circumstances.

LAWTON AND ADA BOXERS TO MEET

Hamp Brown and Claude Sparks Slated for 10-Round Battle.

The peak of fight interest will be reached in Ada the coming Wednesday night when Hamp Brown of Lawton and Claude Sparks of this city, named by Lou Cutler the "human bulldogs," will meet in the national guard armory building on North Broadway in a ten-round decision battle.

In securing these fighters the Ada fire department, under whose auspices the match is to be held, determined to put these two willing mixers into the ring together and see what would result.

The two were matched after the recent boxing program in Oklahoma City. A number of Ada people have seen both battlers in action and are enthusiastic over the opportunity to see their meeting here Wednesday.

Brown, who wears a silver belt as a trophy to his prowess while champion of his weight in the Atlantic fleet, has made a reputation for willingness to mix with anybody and in addition to his ability to take punishment and give it in return is an unusually good boxer.

He has expressed his pleasure at meeting Sparks and has stated that he is going to give Claude a trimming when they meet Wednesday.

Sparks has been working hard since the bout was arranged and will be in the best condition of his career when he steps into the ring to meet his older and more experienced opponent.

An interesting Eneup of preliminary bouts has been arranged and others may yet be added. The opening match will be between Leiber Streeter, 107, and Bob Weaver, 105, both of whom are anxious to try their mettle.

Of especial interest is the colored bout between Dol Garden and Battling Siki, weighing 141 and 145 pounds respectively. Garden will be remembered as the scrapper who in the last program given here laid Yellowboy Anderson low in the first round. Siki is well known to the ring fans here and a slashing six round bout is assured.

The semi-final match will see Virgil Masters, 138, and Kid McKoy, same weight, enter the ring to battle for honors.

COURT CLERK'S OFFICE HAS NEW LICENSE RECORD

The court clerk's office has just opened the ninth volume of the marriage license records of Pon-totoc county. The first license recorded in this book is that of Frank Aller of Springfield, Missouri, and Miss Minnie Agnes McCain of Francis and is No. 5229.

This represents the number is sued since statehood, sixteen years ago, but some have been issued at Allen and Roff, hence it will be seen that the total number runs well up towards 6,000.

GUARD THEIR EYES!

A noted physician recently startled the world by declaring that at least fifty per cent of children had defective eyesight from birth. Examinations made in the schools of New York and Chicago have verified his statement.

Astigmatism and muscular insufficiency, if taken care of when the child is young, will, in most instances, soon disappear. If permitted to go without attention, serious results almost invariably follow. Parents who are at all in doubt concerning their children's eyes should bring them for an examination without delay. By our scientific method of examination we can quickly determine whether there is any serious or minor defect that requires attention.

T. J. Cornish, aged 69, died at Byng at 3:30 yesterday morning. He was at the home of his daughter, Mrs. Jones. The body is being held until the arrival of his two sons, one of whom lives at Bristow and the other in California.

Crack case not only drained but washed free. A-1 Filling Station.

Mayor Fisher reports that drunks are becoming scarce and that the average number of those caught violating the Volstead Act is being rapidly reduced by the police force. He states that he suspects that most of the drinking is being done outside the city limits.

CITY SCHOOLS
READY TO GO

Most Pupils Classified; No Time to be Lost in Beginning.

Everything is ready to begin the year's work in the city schools, according to Superintendent Hickman. Under plans he worked out some time ago most of the pupils of both the high and ward schools have already enrolled and have their books. Monday the classes will assemble, the few who have not already enrolled will be taken care of and lessons assigned. Tuesday morning everything will start under a full head of steam without the delay that usually attends the opening of a school term and consumes three or four days of valuable time.

The public school system of Ada has made rapid strides, both in point of numbers and efficiency during the past few years. At statehood there were two buildings and a faculty of 16. Since then five commodious brick structures have been erected and the sixth enlarged. A faculty of some 70 or 75 teachers is now required to handle the organization.

The Ada high school is recognized as among the best in Oklahoma and Supt. Hickman expects to see still more progress made in the future.

We buy second hand furniture, paying best prices. Phone 438. Shelton Furniture Co. 11-9-1f

Mrs. Julia Scribner, age 79, who has resided in this county for the past 20 years, and who was loved by all who knew her, died at the home of her son, John Scribner, who lives north of Stonewall, Thursday morning, September 6, at 8 o'clock. She died suddenly of heart trouble.—Stonewall News.

Davenport Charge
Of Rioting Seeks
Delay on Hearing

(By the Associated Press)
EL RENO, Sept. 8.—Cases against Dr. A. E. Davenport, state health commissioner and seven employees of the state health department, charged with rioting, were continued until September 14 after they had been transferred from the county court docket to a justice court on motion of counsel for the defendants.

Dr. Davenport and three of the other defendants failed to appear. The charges grew out of the health department's alleged attempt to evict a tenant on property at Darlington near here which the state recently acquired for a hospital for drug addicts.

NOTED WAR TIME
TELEGRAPHER DEAD

(By the Associated Press)
VISALIA, Cal., Sept. 8.—Joseph Clarence Ward, 79, a telegrapher at General Grant's headquarters during the Civil war and the man credited with having taught Thomas A. Edison the Morse code, died here yesterday. It became known today. Ward was a telegrapher for 59 years.

SON OF CHICAGO PACKER
IS ACCIDENTALLY KILLED

(By the Associated Press)
CHICAGO, Sept. 8.—F. Edson White, fifteen, only son of the president of Armour and Company, died early today as a result of wounds sustained when his shotgun was accidentally discharged while he was using it as a club to ward off an attack by a bull on his father's estate near Lake Forest, a suburb.

PAWNEE BANK PRESIDENT
GIVEN FIVE YEAR TERM

(By the Associated Press)
PAWNEE, Sept. 8.—D. L. Martin, president of the Security State Bank here, was sentenced to five years in the state penitentiary for embezzlement of bank funds in county court here yesterday.

Martin was arrested last fall and was alleged to have diverted some of the bank's funds to his own use.

August Bad Month
for Fire Losses
Chief Jones Says

The month of August just past was the worst in the annals of the fire department for the past thirteen years in regard to fire loss, Fire Chief Somer Jones states. During that month the proportion of heavy damages was unusually large. September, according to Mr. Jones, is usually marked by light fire losses. He can not assign a cause to this, but remarked that it is seldom that big losses are sustained during that month.

December represents to the firemen much hard work as it is in that month that the heaviest losses and the greatest number of calls come. The fire department is always put in its maximum efficiency before the last month of the year in preparation for many runs and hard fights with fire.

Aged men of the Siberian Eskimos have their choice of death when too old for usefulness, and the usual requests are for hanging or having a knife thrust thru his heart.

Choral Club Meeting

There will be a meeting of the Woman's Choral Club at the Christian church at four o'clock Tuesday afternoon and rehearsal of the program to be given during the reunion. Members please bring "Love's Old Sweet Song". An invitation is extended to all the women of Ada to join this organization.

FORTNIGHTLY
STUDY CLUB

The Fortnightly Study Club has become a Departmental Club. The first meeting of the Drama Department will be held at Mrs. E. C. Wilson's 215 South Francis, Thurs. day afternoon September 14. The club as a whole will meet at the College at 3:15 Tuesday afternoon, September 18. The Short Story Department will hold their first meeting at the home of Mrs. A. B. Mears, 722 South Rennie, Thursday afternoon, September 20.

CONTRIBUTORS FOR ENTERTAINMENT SUCCESS THANKED

The entertainment committee of the U. D. C. chapter wish to thank Webb Book Shop for decorations Mr. Gowing for the piece of cut glass, Coffman, Bobbitt and Sparks for the punch bowl and other things that were used in making the benefit party the success that it was. Many beautiful flowers were sent in and courtesies extended the committee to show that every one was ready to take part in making the stay of the soldiers and daughters in Ada during the reunion Sept. 19-21 the most enjoyable of the many reunions held in the city.

OLD FIDDLERS CONTEST
AT CONFEDERATE REUNION

Capt. A. M. Crow announces that a feature of the Confederate reunion will be an old fiddlers' contest on the night of September 20. He urges all old fiddlers to drag out their fiddles, brush off the dust and begin practicing on "Billy in the Low Ground," "Turkey in the Straw" and such pieces and be ready for the occasion. He wants it understood that it is fiddlers, not violinists, who will participate. Suitable prizes will be given.

Convict Greased
Body to Make His
Getaway from Pen

(By the Associated Press)
SACRAMENTO, Calif., Sept. 8.—How he greased his body with oil, slipped through the bars of his cell in the Nevada state penitentiary and escaped, traveled naked for eight miles, was related here today by Lee J. Tynna, 24 years old, who is now under arrest. He was sentenced to serve between one and fifteen years in Reno prison for burglary.

"I smuggled a hacksaw and a bottle of oil into my cell," he said, "and feigned sickness so I wouldn't be put to work. One night I saw one of the bars but found I couldn't squeeze out, so I smeared my body with oil and was able to make it."

WIERD TALES OF
SUFFERING MARK

(Continued from Page One)
previously had been reported dead. WASHINGTON, Sept. 8.—Subscriptions to the American Red Cross Japanese relief fund passed the three million mark today and officials of the national organizations expressed confidence that the goal of five million dollars would be passed early next week.

School Days
Are Here

Now that this week marks the beginning of another school year, parents will be jangled over what Mary and Tom should have in the way of clothes and supplies. If you will come here we will show you that there is not such a task after all in providing the girl or boy with all requirements.

For girls and boys you will find especially smart coats, woolen and cotton frocks, suits, trousers, hats, caps, bloomers, middies, undergarments, hosiery and all accessories that the young school going pupil should need.

Also, this store is headquarters for all adopted school texts, school supplies and stationery, which, in many ways will assist you solving actual needs.

BIBLE THOUGHT FOR TODAY

GOD CREATED ALL:—All things were made by him; and without him was not any thing made that was made. John 1.

A NICE WAY TO KILL THE GAME

It is reported that Hermann of the Cincinnati National League team has instituted suit against a Chicago sporting publication, alleging false reports about his players have been printed in that publication. Go to it, old boy. You are making a nice start to kill your game.

Baseball has become the national sport on account of the great publicity the newspapers have given it. They have given this publicity because they believed it was straight and because they were not molested by childish fancies of imaginary wrongs. Let the managers of the teams begin hounding the newspapers for what they choose to fancy are misrepresentations. Let them institute a few suits and from the nature of things the newspapers will curtail the space given the game. When this is done, baseball as a national sport is history. Without publicity Babe Ruth would be unknown and Ty Cobb a Georgia farmer.

Newspapers give the readers what the readers want. Readers want facts and opinion about baseball players which are unprejudiced and this is what they have been getting. If the managers are not content with that and attempt to dictate the kind of matter written, it will be all off and many of them will lose their fat jobs.

SOUL LIVES ON, SAYS EDISON.

Edison at the funeral of President Harding told an Associated Press man he had made some progress in his search of knowledge of the life after death. "The soul lives after death takes flight," says Edison, "but in what form and manner, I don't know."

Edison does not believe the spirit, as it is commonly known, returns to earth and communicates with those living, but says, "We do know that the soul exists after death."

"I have not found it possible to demonstrate the existence of the life beyond," says the inventor, "and I cannot say that men, including the beloved President Harding, live after death. But there is a great directing head of things who looks after the destinies of the world. I have faith in the Supreme Being and in some form of life after death."

Matter is indestructible, altho it may change its form. Why should that much finer elusive thing, called life, perish? Is it not the divine essence that permeates the universe?

Sulphur affords a striking example of the effects of publicity. During the feuds of early days the town lost its popularity as a health resort but when the people finally had enough of that sort of thing and begun to pull together business showed signs of picking up. The newspapers of surrounding counties had a friendly feeling for the town and devoted much space to telling of the good points about it. The result was that Sulphur has gained steadily every year and is now the most popular resort in Oklahoma. Without this publicity many of the business houses would now be bat roosts, for Sulphur would be regarded as a back number in spite of her real merits.

In view of the crooked practices of various individuals of the state who have charged relatives of convicts exorbitant fees for using their pull in getting paroles or pardons, the governor would do well to call a halt on the pardoning business for a time at least. This practice has gone on for several years and it is time that less heed be paid to the pleas of individuals who have political influence.

Chairman Madden's plan to apply surplus revenues to the reduction of the federal taxes is a good one. Hitherto a surplus was a shining mark for all aspiring politicians to shoot at. Every member of congress wanted a share of it for his district and the surplus became only a big pork barrel. Madden would remove this temptation.

All the coons may not be up one tree but in Oklahoma the hunter of the spot on the globe most favored by Mother Nature can come as near finding all that makes life worth living in this state as anywhere else. There may be some coons in other trees but Oklahoma has more than the majority of places.

Now it is said that with Mexico recognized and extradition a possibility, Fred Dennis may be captured and returned. However, by the time the papers arrive Fred will doubtless be somewhere else.

With cotton beginning to move at a good price indications are that things will take on a different tone here with in a few days. The weather now is considered favorable for a fair crop, the acreage and stand both taken into consideration.

The new Irish parliament will not likely be a very dull place with both Mary McSweeney and Eamon de Valera as members—that is, if de Valera gets out of jail in time to take his seat.

This program promises to be a most interesting one. Mr. Daugherty is back with us and we are all ready for a hard winter's work. If you are not a member of any other society come help us, you are cordially invited.

First Baptist Church

Our Sunday School begins promptly at 9:45. We have classes for all ages with competent teachers. Mr. J. A. Ridling is the general superintendent and D. W. Swaffar is the general secretary. Mr. W. C. Duncan is the superintendent of the Senior and Adult department. Mr. W. T. Melton is the superintendent of the Intermediate department. Mrs. L. J. Crowder is the superintendent of the Beginners and Primaries department, and Mrs. F. R. Laird is superintendent of the Cradle Roll department.

Pontotoc County Baptist Association

The Pontotoc County Missionary Baptist Association closed its sessions Saturday at noon at Stone-

wall where they have been in session since Thursday afternoon. There were some sixteen churches in the county represented at the meeting. It was said by many to be one of the best and most far reaching in plans that has ever been held. Mrs. J. C. Hynds was elected

Associational president of the Wo-

The Men's Bible Class meets at the McSwain Theatre at 9:45. Mr. J. L. Huber is president of the class and U. C. Dixon is the secretary. Mr. L. A. Ellison will teach the lesson and to hear him once is to want to hear him again. All men invited.

The pastor will preach at the morning hour on the subject "Paul's Injunction to Church Members." We hope to see a large attendance on the part of the members. This is the day for taking our annual "Every Member Canvass" and the following named brethren will compose the canvassing teams; L. A. Ellison, chairman, J. E. Hickman, Dr. F. R. Laird, D. W. Swaffar, W. C. Duncan, W. S. Kerr, B. B. Howard, Belton Brady, J. E. Harris, T. J. Chambliss, Frank Arnett, John Boud, Charley Bobbit, A. D. Bolton, E. B. Johnson, Chas. T. Bates, L. J. Crowder, C. S. Cope, R. H. Couch, H. E. Deering, H. C. Griffith, W. S. Holoman, U. C. Dixon, O. F. Davidson, Fred Gay, George Grimes, R. C. Garrett, J. T. Braly, H. J. Hudleston, J. L. Huber, E. C. Hodges, J. C. Hynds, M. F. Haralson, J. D. Jackson, S. D. Johns, Robert Kerr, W. D. Little, L. A. Braly, C. P. Lehr, Granville Montgomery, H. E. Morris, W. T. Melton, S. H. Mount, H. C. Pitt, C. H. Perry, J. A. Ridling, E. K. Smith, Bennett Story, J. L. Sanders, Jr., C. J. Skirvin, D. G. Thomas, Judson Treadwell, J. B. Tatum, J. W. Westbrook, R. F. Wilborn, W. H. Wright, Tom D. McKeown, Dr. S. A. McKeel.

The wives of these brethren will serve a simple lunch at the church at the close of the morning service to the canvassers and immediately following the lunch hour the teams will start out on the canvass. They will come to your home between the hours of two and five thirty. You are requested to please remain at home if at all possible until they have seen you.

The B. Y. P. U.'s will all meet at 6:45. Let all the young people remember this and be present.

The evening service will begin at 7:45 and the pastor will preach on the subject, "The Message of Calvary." This is continuing the series begun some weeks ago. We hope to see the usual large congregations present at our services. The public cordially invited.

Solo.

Pontotoc County Baptist Association

The Pontotoc County Missionary Baptist Association closed its ses-

sions Saturday at noon at Stone-

wall where they have been in session since Thursday afternoon. There were some sixteen churches in the county represented at the meeting. It was said by many to be one of the best and most far reaching in plans that has ever been held. Mrs. J. C. Hynds was elected

Associational president of the Wo-

man's Missionary Union, Mrs. Tom Henson of Stonewall, vice-president, and Mrs. H. E. Deering, secretary. Rev. C. C. Morris was re-elected moderator and D. W. Swaffar was re-elected clerk. Rev. T. J. Coffee was elected assistant moderator and J. J. Copeland was re-elected treasurer. Mr. J. C. Hynds was elected associational B. Y. P. U. president.

The reports from the churches all showed distinct gains in membership and evidence of growth in many ways. Constructive plans were laid out for the future and it is hoped to make the coming year one of the greatest in the history of Pontotoc County Baptists.

Presbyterian Church Social
Circle No. 1 of the Presbyterian Auxiliary will meet Monday afternoon at four o'clock with Mrs. I. M. King, Mrs. E. O. Whitwell will be associate hostess.

NEXT YEAR'S AUTO TAGS TO BE GREEN AND WHITE

(By the Associated Press)

MCALISTER, Okla., Sept. 7.—

The 1924 automobile license plates for Oklahoma will be green and white, according to Warden J. Henry Townsend of the state penitentiary at McAlester, where the tags are being manufactured by prison labor. The penitentiary has a contract with the state, Townsend said.

The figures on the license plates next year will be white and the

background is to be of green, the warden stated. More than half of the sets have already been completed, he reported. There will be more than 300,000 sets of plates for Oklahoma automobiles in 1924.

SOUTHERN METHODIST MISSIONARIES SAFE

(By the Associated Press)
NASHVILLE, Tenn., Sept. 8.—All Southern Methodist missionaries in Japan, number 75, are safe, J. S. Oxford, treasurer of Japanese missions of that church, cabled the board of missions from Kobe today.

HOW INMATES OF PRISON ARE CARED FOR

(By the Associated Press)

McALESTER, Okla., Sept. 4.—More than 1,500 men and women all inmates of the state penitentiary here, are eating good food which is furnished at a cost of 19 and 20 cents a day and a majority of them are gaining weight, according to J. Henry Townsend, warden. Regular hours for sleeping and work are responsible.

Food for the large majority of the men, who eat at the main dining tables, costs around 17 and 18 cents a day. Warden Townsend says. Meals are served in a separate dining section to the women inmates and their food, the warden says, costs between 25 and 30 cents a day. More expensive food is served to the penitentiary inmates who are in the institution's hospital, most of whom require delicate edibles, costing between 28 and 35 cents a day.

About once a week, Warden Townsend says, hot biscuits are served for breakfast, each baking requiring 7,000 of them. The biscuits are baked in the penitentiary's own bakery and occasionally the menu is varied by an offering of hot cakes, instead of biscuits. Hot cakes, however, are an added liability, the cooks find, as it takes about 8,000 of them to make a breakfast complete.

Breakfast usually consists of hash, bread, butter, coffee, syrup and apple butter, according to Warden Townsend. The noon and evening meals are much alike, he says, with meat and vegetables comprising the substantial dishes. Beef is served about four times during the week and on the other three days the meat may be sausage, pork, venison or fish. The other dishes include corn, beans, peas, spinach, potatoes and cornbread once a day. Coffee is served with all meals.

Vegetables served in the penitentiary dining rooms come from the two prison farms, according to the warden. One of the farms near the institution has about 2,000 acres and the other at Aylesworth about 2,200. Both are cultivated by prisoners, about 125 being used at Aylesworth and around 75 at McAlester.

One of the largest projects which the penitentiary is undertaking, according to Warden Townsend, is the construction of the McAlester waterworks plant. One hundred twenty-five men are being used there daily, he said. All the others with the exception of the farmers and about 75 men being used in work on the state capital grounds at Oklahoma City, are employed in the various factories and institutions connected with the penitentiary.

Prison labor manufactures brick, twine, automobile tags, mattresses, shirts and shoes and is used in the

BRADFORD KNAPP ACCEPTS PRESIDENCY OF A. & M.

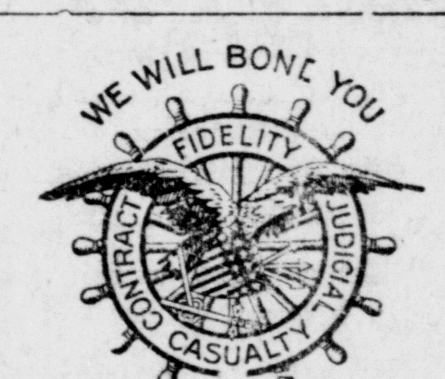

OKLAHOMA CITY, Sept. 8.—(Special)—Dr. Bradford Knapp, dean of the department of agriculture, University of Arkansas, was elected president of Oklahoma Agricultural and Mechanical college Friday and has accepted the appointment. He succeeded R. G. Tyler, acting president, on October 1, it was announced by J. A. Whitehurst, president of the board of agriculture. His salary will be \$8,000 annually.

The acceptance by Knapp of the appointment as president of the Stillwater farm school gratifies the frequently expressed desire of Whitehurst to bring to Oklahoma both a practical agriculturist and an outstanding educator as head of the state school, for Knapp has devoted his life to the farming industry, both as an educator and as an employee of the United States department of agriculture.

Knapp was born at Vinon, Iowa, December 24, 1870. He was graduated from Iowa agricultural college at Ames, later continuing his education at Vanderbilt university and the University of Michigan. He also attended Maryland Agricultural college, taking the degree of doctor of agriculture.

FAIR AT VANOSS GREAT SUCCESS

Good Line of Exhibits and Keen Interest Among Citizens of District.

Those who attended the township fair at Vanoss, state that it was by all odds the best ever held there. The people from the entire township turned out and made a holiday of it. Their exhibits, which were on display at the school house, were of high order of merit. A most noticeable feature was the interest one and all displayed in the event.

The livestock exhibit was splendid. Not only that but the citizens had built pens for the hogs and arranged for the cattle and horses to be displayed to the best advantage.

The farm, home and school exhibits were numerous and of excellent quality.

The Ada boosters and college band visited the fair in the afternoon and gave a concert.

CHILD STAR SAVED BY QUICK-WITTED DIRECTOR

During the filming of "Children of Dust," a First National picture now playing at the McSwain theatre, a serious injury to Frankie Lee, one of the child stars, was averted by the presence of mind of Director Frank Borzage. In directing a scene from a tenement balcony, the railing suddenly gave way precipitating Borzage and Frankie to the stage below. Borzage managed to catch the boy as they fell, taking the brunt of the fall himself. He was laid up for two days with severe bruises and a strained back, but Frankie escaped without a scratch.

Said to have greater appeal than "Humoresque," also directed by Borzage, the faithful depiction of a romance set in a quaint old section of New York brings "Children of Dust" rightful recognition as one of the greatest pictures of the year. The love tale, starting in early childhood, goes through the years with absorbing sequence accentuated by human interest touches to an inspired climax.

Johnny Walker, Pauline Garon, Lloyd Hughes and Bert Woodruff head a superb cast of all stars. The picture was adapted from the Metropolitan Magazine story, "Terwilliger."

PREMIUM WINNERS AT MAXWELL FAIR

First Premiums.

Fred Roy, 25-boll sample cotton.
Henry Nero, watermelon.

ANTI-SALOON LEAGUE HEAD IS BEATEN UP IN DALLAS

DALLAS, Sept. 8.—(Special)—Rev. Atticus Webb, president of the Anti-Saloon League of Texas and a prohibition worker of national repute, was attacked and brutally beaten by a man here Friday afternoon as he was leaving the building where his offices are located.

A. D. Carey, proprietor of the Carey Hotel in Fort Worth, and his wife were charged with aggravated assault in connection with the attack. Carey first went to the police station and paid off \$5 and police fighting, saying "I have just hit a man." Later he was charged with the aggravated assault in Justice Court.

The prohibition campaigner had his left eye discolored, his face bruised, his head cut and his ribs bruised. He declared when by-standers attempted to interfere his assailant fled down the street.

Publication of the court record of an alleged vice case is believed to have brought on the attack on Webb. The story was said to have been published in a paper edited by the prohibition campaigner.

KLAN NOW UNDER WRATH SENTENCED

(Continued from Page One)

police, J. W. King, assistant state attorney general, summoned here today from Tulsa. At the same time King said criminal charges will be filed against four members of the Tulsa police department who are alleged to have been involved in the brutal handling of prisoners while the latter were held without charges having been filed against them.

TULSA, Sept. 8.—Later General Markham said the movement was simply the exchanging of units and that other guardsmen would be brought here to take the place of those sent home.

OKLAHOMA CITY, Sept. 8.—Gov. Walton's campaign to rid Oklahoma of mob violence and bring to justice persons responsible for floggings developed today into an open contest between the executive and the Ku Klux Klan with indications of a battle to the finish.

What the governor's next move would be in the face of the public defiance by N. M. Jewett, grand dragon of the Klan rewild of Oklahoma, who condemned Walton's investigation of mob activities in Tulsa county as a fight against the Klan, was a matter of speculation. One thing was clear, however, martial law threatened the entire state in the event of increased opposition to the inquiries into mob activities being conducted in a number of counties at Walton's direction.

Rumors have been circulated in capital circles for several days that Gov. Walton was contemplating action to force the Klan to unmask in this state. Such reports, however, have found no confirmation.

Walton's Statement.

Following is the statement issued by the governor Friday:

"I am not contemplating any moderation of the martial law proclamation in Tulsa county nor the withdrawal of the military nor any let up in the military investigation now being conducted there.

"On the contrary, if any new orders are issued, they are apt to be in the nature of a proclamation declaring martial law throughout the State of Oklahoma, including Oklahoma county.

"The extent to which the legal agencies of government have broken down in this state is appalling and the number of acts of mob violence in the form of another that have gone unpunished and without investigation for the last two years is utterly amazing.

"I realize that the conflict with the lawless element and lawless spirit of large groups of Oklahoma citizens is a desperate one; that my enemies will use every weapon at their command, including the press where they can command it, grand juries and other agencies, to defeat the purpose of this administration. However, my determination is unshaken to restore the supremacy of the law in this state and, if possible, to restore that measure of good will and good nature among our people, without which Oklahoma can not maintain her places in the forefront of the American commonwealth.

J. C. WALTON,
Governor."

NOTED GERMANS IN MEXICO FOR STUDY OF SOLAR ECLIPSE

MEXICO CITY.—A party of German scientists, headed by Prof. H. Ludendorff, director of the Potsdam observatory and brother of the field marshal, were the first of the foreign savants to arrive in Mexico to observe the solar eclipse on Sept. 10. After being welcomed by representatives of the government and inspecting the national observatory at Tacubaya, the party left for Yerbaniz, Durango, where they will install their instruments.

In the party is Prof. R. Schoor, director of the Hamburg Observatory, who, at the outbreak of the world war, was with Professor Ludendorff in the Crimea on the same mission that finds them in Mexico. They were forced to abandon all their instruments, according to Schoor, and flee to Germany to avoid internment. Several months ago the professors travelled to Odessa and managed to retrieve the outfit, which is now being sent to Yerbaniz for use in observing the coming eclipse.

MAIN STREET

One Week With Pay

When does a vacation begin?—When you start to plan it.
When does a vacation end?—When you take it.

By whom were vacations invented?—Some poor devil who could never afford to take one.

Where is the lovely scenery?—In the little free pamphlet furnished at the railroad office.

Where is all the wonderful fishing?—In the little booklet sent out by the chamber of commerce.

Where is the glorious climate?—On the poster pasted up by the steamship company.

What is a private bath?—One where not more than twenty persons demand its use.

How can you tell poison ivy from the harmless kind?—Give it time. If it poisons you its poison.

Who enjoys (1) a picnic lunch in the woods, and who enjoys (2) those who participate in it? Ants (1), chiggers (2).

What kind of cows does one encounter in the country? Stray and curious.

Do they give milk? Not to anybody from the city.

How long is a mosquito?—From one to sixtizing inches.

What is mosquito netting?—The bridal veil of discomfort.

What is its purpose?—To advertise its victim.

What does the average vacation cost?—Twice the amount it's worth.

Everyone admires a good girl—but not too good—for the good girls die young and the dead are long dead.

Without the flapper, we would have no one to poke fun at.

There are two classes of men. Those who wear nightshirts and those who don't.

A bachelor is a fellow who thinks it's a long Sunday when the home team is on the road.

A local feminine bathroom bather would have us know that solitary splash does not always mean that one is alone in a house.

When the Pinch-Hitter intimidated that Ye Scribe might purchase two tickets on his vacation return, he voiced the lamentations of many others, who in matrimony or misery desireth company.

With the advent of the football season at hand, it behooves the campus flapper to cease rolling her skippers in order that tackling practise will be more interesting on the gridiron.

The equity in love is practically the same as in grandma's day. While Granny's finery didn't cost quite so much the present day flapper's jazz attire, the wear and tear from unexplainable sources wasn't so great.

Japanese cherry trees presented to the City of Washington by the City of Tokio during Taft's administration, brought in the Oriental fruit-worm which has caused heavy losses in the south.

Eczema On Hands For 5 or 6 Years Cuticura Healed

"Eczema broke out on my hand following a severe burn. Every time I washed my hands or had housework to do I suffered tortures. I could not rest at night. It broke out in blisters which ran water. After a time the blisters would dry up and peel off and a new blister would form.

"I had the trouble about five or six years before I began using Cuticura Soap and Ointment, and after using them about three months I was completely healed." (Signed) Mrs. H. F. Elmer, 1723 Mechanic St., Galveston, Texas.

These fragrant emollients are all you need for all toilet purposes. Soap to cleanse and heal, Ointment to soothe and purify, Talcum to powder and perfume.

Sample Free by Mail. Address: "Cuticura Laboratories, Dept. 11, Malden 28, Mass." Sold everywhere. Soap 25c. Ointment 25c. Talcum 5c.

Troop No. 4 has taken a step forward in the matter of reorganizing their troop so that they can begin active work for the new year. Recently they held a meeting for the election of patrol leaders. Brown Mackin, Harve Shipman, and Linn Cales were elected patrol leaders. N. T. Heard Jr. was elected Senior Patrol Leader and Clifford Elliot was advanced to the rank of assistant scout master. This is the finest kind of scout work for when a scoutmaster like Roy Meek can get the boys to take as much active leadership of the troop then he is getting the very highest results in scouting. The development of boy leadership is one of the greatest benefits of scouting to a community. A boy who is taught to lead other boys in the right way becomes one of the community's biggest assets, and this is exactly what Roy Meek is doing with his troop. Every week Roy Meek meets his patrol leaders at his home and they all together plan their meetings. It was decided to form plans to raise money to meet certain troop needs. Brown Mackin was made Chairman of a committee to raise funds with which to build a boat to be placed at the city lake. N. T. Heard Jr. was appointed chairman of a committee to look after a basketball court. Plans are being made to organize football and basketball teams. Last Thursday night this troop had a picnic treat, for each scout brought lemons and sugar and lemonade was made. Chas. McNew and Stewart Linschmeider ran a race to see who could drink the most lemonade and Chas. admits that Stewart won. Through the kindness of Mayor Fisher and the other city commissioners this troop meets regularly at the city hall and plans will be executed soon to fit up the hall with some simple athletic equipment.

Troop 7 under Clyde Alletag is certainly coming out of it. We have said all the time that if Clyde would stay with that group that they would show him that they were worth all their trouble and his patience. Willard school basement is being fitted up with some simple equipment for play. The scouts have done a lot of work over there getting it ready. They have raised money for a punching bag and other things. Last meeting night Clyde reports a big attendance. Owen Izzard, Finis Neil, James Haralson, Carl Marsh and others are rounding up the boys. This troop is planning for a fast basketball team. Troop 4 even if they do have Clifford Elliot and N. T. Heard and a few other ginks as troop 7 says had better get in good shape for the first football game with troop 7 or they will be given a disastrous defeat.

Scouts, the Confederate Veterans will soon be here. We are going to have a prominent part in the parade and we also are responsible for meeting the trains seeing that ice water is plentiful and that these veterans are treated with every courtesy.

At a mass meeting soon for all the troops, we are going to have some cats for the scouts, and we are going to outline to the scouts the big plan that we have in mind for the year. We will tell you this much that the council is planning on giving another free camping trip to the troop that does the best scout work. This trip will probably be to the Wichita mountains, over near Lawton and Fort Sill, Okla. The Masons have a fine lodge over there which is open to the scouts and DeMolays of Oklahoma and it is equipped with cots and every thing. It is close also to the big Forest Reserve where there are deer, and buffalo and antelope. And you may tell Alfred Vaden that he can get his chocolate soda over there too, and plenty of fine spring water right near to drink. Frank Rush retired forester lives close and he is one of the very best friends that a scout can have.

Scouts the fine business men of Ada are backing the scout work of Ada stronger than ever and you can count on them for helping us to put this over and many other things, too. The men of Ada are for you in every way and all they ask is that you do your best as boys to live up to the oath and scout law. The scout executive will have a car this fall sometime and we will see that small groups of scouts get to go to various places for over night hikes.

Eagle Scout Carl Brownall is back from a trip to Colorado where he and his mother have been for a month. Carl came to the office the following day and told us about catching trout while near Boulder, Colorado. He says that he caught only nine the first day 14 the second day and as for the third day well he didn't say but if he had kept up his rate of increase for a few days, why there wouldn't have been many trout left for the other fishermen.

Best Good Turn. In a desperate moment of crisis when parents and friends in a panic stood helpless and watched a baby bleeding to death from a severed artery, sixteen-year-old Eagle Scout Carlton Price of Syracuse, N. Y., calmly put into practice his first aid training and by pressing back the openings of the wound held them in place with a silver knife, and performed expertly with soft

old linen the required bandaging. "The three-year-old baby, playing in the fields near his father's house, eight miles from Port Byron, N. Y., ran into the reaper and his right foot was almost severed at the ankle," states the Syracuse Post-Standard. "The father, Lynn Van Gild, unaware that the child was in the field, saw him too late as his little pink dress flashed alongside the razor-like blades of the reaper. Pulling his horses sharply, he was able to avoid more serious injury."

Eagle Scout Carlton Price is working for the summer on the Van Gilder farm. Hearing the father's cry he hastened over and helped to carry the baby to the farm house. In the midst of panic he was the calm, cool person who took charge of things, pressing the others into service as his assistants. "When the doctor came, he marvelled that a boy could do such an expert job of bandaging and left everything as it was until the child was brought to the Good Shepherd hospital where the foot was operated upon."

The small patient is reported as making excellent progress.

SCOUTS SERVE CREAM AND CAKE; MEDALS AND BADGES GIVEN

The boy scouts of Allen entertained their parents at the scout hall Tuesday evening, ice cream and cake being served by the youngsters to a good number of persons who had been invited to attend the meeting. Scoutmaster Sipes, at the beginning of the meeting, told of the work in which he has been engaged with the boys, and related some of their experience, how the troop has progressed and his hopes for its future, mentioning the fact that the troop while the most efficient in the county if not in the whole state, is run on very little money, scarcity of finances being one of the greatest difficulties of the local organization. At the conclusion of his remarks Eagle Scout badges were presented to Chester Smith, Forney Hutchinson, Russell Bond, Eric Means and Clovis Reid, the sixth scout entitled to this honor. Dennis Kidwell, being absent, Gold medals were then presented to Austin Kidwell, Forney Hutchinson and Clovis Reid, Austin having won his for excellence in an essay on the Life of Christ, Forney for making the highest grade in high school last term, and Clovis for ranking highest in the ward school. Mr. Sipes made the presentation to Austin, J. K. Malone presenting the medals to the other lads.

After the evening's work came the refreshments of the day, being greatly enjoyed by all present.

OKLAHOMA FIRST STATE FLOWER SHOW

OKLAHOMA CITY, Aug. 5.—Oklahoma is to have her first annual flower show November 16th and 17th and it is to be held at Oklahoma City. Sixty-five of the leading growers of fine flowers have signified their desire to put before an Oklahoma public the kind of flowers they are growing for their Oklahoma trade.

As soon as the announcement went forth that a state flower show was an assured event, out of state growers became interested and sought admission, and at this date Oklahoma's first state flower show has assumed the proportions of a semi-national show. Flowers from Indiana and Illinois, particularly those grown in the gardens of Chicago, will be shown. Beautiful California flowers will vie with the flowers from Colorado and the middle west and the semi-tropical from Florida. The doors are still open for admission and the directors expect to book several other states before all plans are made final.

The exhibitors plan to present the newest as well as the very best in the flower kingdom at that time. Flowers change as do styles and fashions, so the new roses Sublime, Crusader, Medina, Golden Rule, Commonwealth Phantom, Golden Ophelia, Double White Ophelia, and others, all specially grown by the original propagators for the show will be displayed, and are being disbudded carefully now and will be timed by the growers to be at their very best by show time. The new carnations, Winsome, Red Laddie, Matchless, Olivette, Edna and others of this exquisite family will be seen. Chrysanthemums in all their glory will be exhibited by the thousands and in almost as many varieties, from the tiniest specimens no larger than the rubber of a lead pencil to the mammoth flowers as large as drum plates. The white varieties will resemble great and small snow balls because of the extreme care that has been given them for a year past. Growers have watched these matchless varieties by careful picking, disbudding and spraying to guard against a single blemish on flower or foliage. One bloom to a plant for the large ones, is the toll paid by appearing buds, and over a square foot has been allotted each exhibit plant in the hot houses.

"Consider the Lilies How They Bloom," will be illustrated by one of the most extensive exhibits ever shown of this rare and exquisite flower. Easter Lillies, Lillies of the Valley and other specimens will be on display in ravishing arrangements. Then there will be the dainty sweet peas, the rare Orchids, the gorgeous Dahlias, the stately palms, feathery ferns, fancy leafed ornamental plants, box woods evergreens, Bay trees, shrubs and the hardy perennials, will have their places.

Parent-Teacher Association.

The Parent-Teacher association of Washington school will meet at the school house Monday afternoon at 1 o'clock. All parents urged to be present.

MRS. J. M. BELL, Pres.

WHAT THEY SAY

Suspension of Habeas Corpus.

United States constitution, Art. I, Sec. 9:

"The privilege of the writ of habeas corpus shall not be suspended, unless when in case of rebellion or invasion the public safety may require it."

The implication that it may be suspended has never been seriously questioned and to what effect. April 17, 1861, President Lincoln authorized Gen. Scott to suspend the writ of habeas corpus between the cities of Philadelphia and Washington, D. C. Again on the coast of Florida May 2, 1861. The authority conferred on Gen. Scott was extended on July 2, 1861. It was made general September 24, 1862, as to persons arrested by the military authorities for disloyal practices by act of congress. On September 24, 1864, President Lincoln proclaimed a general suspension of the writ of habeas corpus to continue "through the duration of the rebellion," April 3, 1863, Gen. Burnside in command of the district of the department including Ohio, put forth a general order in which he said that: "It must be distinctly understood that treason expressed or implied will not be tolerated. Three weeks after this order C. L. Valandingham, former member of congress, was arrested at his home at Dayton, Ohio. He was tried by court martial and found guilty of some of the charges and sentenced to confinement until the end of the war."

President Lincoln modified the sentence into directions that "Mr. Valandingham should be sent through the lines of the states in rebellion." Judge Leavett of the United States district court was appealed to for a writ of habeas corpus which he refused. William B. Mumford was tried for treason at New Orleans by a military court, convicted, sentenced to death by hanging and was executed by hanging May 7, 1862, without benefit of habeas corpus. In the summer of 1864 Milligan, a citizen of Indiana, charged with sedition and treason, was tried by a military commission in Indiana during the fall of 1864 and found guilty. The military court sentenced him to be hanged and the finding

of the military court was forwarded to the president for his approval. He failed to act on it at once but in May, 1865, the sentence was approved by President Johnson.

Milligan was still in prison and in May, 1865, he petitioned the United States supreme court for a writ of habeas corpus asking that he be discharged. The case was argued from May 5 to 13, 1866, and the opinion of the court delivered December 17, 1866.

The proceedings are so lengthy that I quote as follows:

1st—The supersession of the writ of habeas corpus does not suspend the writ.

2nd—The military court trial was contrary to law.

3d—Milligan should not be treated as a prisoner of war when he lived in Indiana and had not been a resident of any of the states in rebellion.

OBSERVER.

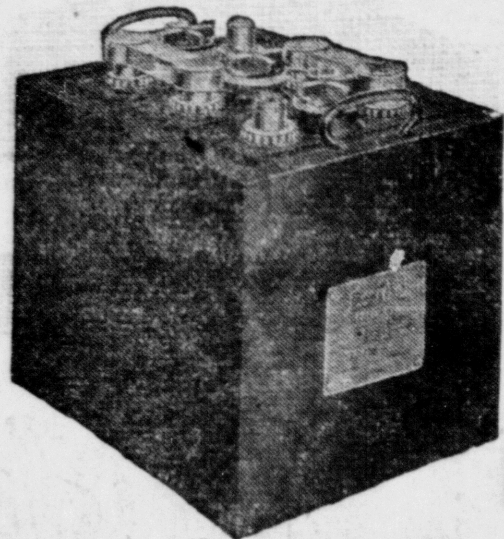

SAYS PREHISTORIC "SKULL" IS NOTHING BUT SANDSTONE

BUENOS AIRES, Aug. 5.—The opinion of Argentine scientists that the alleged tertiary human skull discovered by Dr. J. G. Wolfe in Patagonia some months ago is not a fossil, has been confirmed here by Professor Emeritus S. Riggs, paleontological explorer for the Field Museum, Chicago.

"That," said Professor Riggs, turning over in his hands the oblong stone object curiously impressed with human-like features, and which for the last two months has served as a paper-weight on the desk of Professor de Benedetti, an archaeologist, "that, as a fossil, is certainly a piece of bunk. As a geological specimen it is a piece of solid sandstone, a natural concretion, queerly shaped, but not so queer at that. I've seen others like it. It's only one of nature's little jokes."

Professor Riggs' examination ended two months' pursuit of the "skull" which began during his fossil hunting explorations in Patagonia when he received instructions from the Field Museum to investigate Wolfe's reported discovery, following the receipt by the museum of a letter from Wolfe asking employment in Patagonia as an anthropological researcher. For this, says Professor Riggs, he gave the scientific credentials which, first won credence for his claim, which included letters from American, Canadian and German authorities.

GOOD RETURNS FROM GAS TAX

State Highway Department
Gets Check for First Two
Months Operation.

(By the Associated Press)

OKLAHOMA CITY, Aug. 5.—The first two months of the state's one cent a gallon tax on gasoline netted \$170,000 to the state auditor. A check for that amount was delivered to the highway department last week, in accordance with provisions of the Ninth Legislature levy, which became effective July 1, 1923.

The \$170,000 check represented incomplete payments from gasoline consignees all over the state. Many of them, it was explained, have not yet paid their one cent a gallon tax and when their reports are received the gasoline tax figure for the first two months is expected to swell considerably.

The entire amount of gasoline tax collected is to be apportioned among the 77 counties of the state for road building and maintenance purposes, according to law. The excise tax was intended to build up highways in the weaker counties and provide a connected system of cross state hard surfaced roads.

Allotments to different counties are based upon the amount of road work necessary in that county on roads designated by the state highway department, according to the statute. In each county there are certain routes approved by the state department with a view of connecting with approved routes in adjoining counties. It is on these roads that the money will be spent, the act states.

Counties in which a large amount of road work has already been completed, such as Tulsa and Oklahoma counties, will receive less in proportion than other counties in which there is much work to be done, according to the highway department.

The funds "shall be apportioned by the state commissioner of highways in each county in the state in that percentage which the present approved state highway mileage within such county bears to the present approved state highway mileage within the state," the act reads.

After having been apportioned to the counties, the statute says the money shall be used "by the county commissioners for the purpose of constructing and maintaining state highways and bridges under the direction of the state commissioner of highways." None of the money shall be diverted for any other purpose.

All gasoline consignees must pay the one cent a gallon tax, according to the statute. Gasoline manufacturing plants using their own gasoline also are required to pay the tax. The term gasoline is defined by law as including all gasoline, benzol, liberty fuel, and such other volatile and inflammable petroleum products as have a Baum gravity above 60 degrees at a temperature of 60 degrees Fahrenheit.

"LIGHT UP WEEK" AT STILLWATER BEGINS SATURDAY

STILLWATER, Okla., Sept. 7.—When Oklahoma boys and girls arrive in Stillwater Saturday night or any night next week, to enter A. & M. college, they will find the city "all lighted up" in their honor and for their practical benefit.

The week of September 8-15 will be observed in Stillwater as "light-up week." In houses in the residence districts the front porch and front room lights will be kept burning until bedtime. Blinds will be up. Street lights, of course, will be burning as usual.

Mayor Chris Holzer has issued a proclamation calling upon the people of Stillwater to observe the week. His proclamation sets forth that the plan, which is altogether new and novel, has been endorsed by various civic organizations, including the Chamber of Commerce and Rotary and Lions clubs, at formal meetings, while the Business Women's club, Junior Chamber of Commerce and others informally have applauded the idea.

The purpose of "light-up week" is two-fold, as explained by Rev. Allen S. Davis, Presbyterian minister, who first proposed the plan. It will cause the streets to be better lighted, making it easier for the students in their search for rooming and boarding houses, a search they usually carry on at night, being busy with registration and such things in daytime. And it will serve as a visible welcome to the new students, as well as a recognition of the return of former students.

Registration of students will begin at 8 o'clock Tuesday morning, September 11, according to announcement by R. G. Tyler, acting president.

Early comers among the students both old and new, have been arriving in Stillwater all this week, but the general influx will begin Saturday.

CONVICTS SET FIRE TO PENNSYLVANIA JAIL

YORK, Penn., Sept. 8.—Nine convicts sent to York county jail recently from the eastern penitentiary at Philadelphia mutinied today and set fire to the prison. The fire was extinguished before serious damage was caused to the building, but a number of prisoners were overcome by smoke and flames and are in a serious condition.

Photographs of the Suns Corona is to Feature Eclipse

(By the Associated Press)

CHICAGO, Sept. 6.—Photographs of that mysterious outer envelope of the sun, the corona, to be made with the horizontal telescope, 60 feet long, will be one of the chief features attempted by the expedition sent from Yerkes Observatory to observe the total eclipse of the sun from Santa Catalina Island, off the port of Los Angeles, September 10, according to announcement by Edwin B. Frost, director of the observatory who will direct the expedition.

A total eclipse affords the only opportunity which the inhabitants of this planet have for observing the corona. Prof. Frost explained. The corona is the circle of light seen around the sun during a total eclipse. It is not known whether it rotates with the sun, as it turns about its axis in 25 days. To test this, a special spectrograph has been adapted and will be operated by Prof. Philip Fox, director of the Dearborn Observatory of Evanston, Ill. The telescopic lens used will be the 12-inch photographic objective belonging to the Yerkes Observatory, receiving light from a second mirror on the polar axis, or ecliptic.

So far as known, Prof. Frost said, no successful thoroughly scientific film of the various phases of a total solar eclipse ever has been obtained.

At the Camp Wrigley station of the Yerkes Observatory, 1,300 feet above the sea and about three miles from the town of Avalon, the total phase will last for two minutes and forty-nine seconds, beginning at 12:54 p. m., Pacific standard time, Sept. 10.

"The size and shape of the corona," Prof. Frost declared, "varies from one eclipse to another, apparently changing with the eleven-year cycle of the sun's activity. At present the sun is approaching its state of minimum activity, sunspots being now very rare and small, and the eruptions or prominences seen with the spectroscope at the sun's edge are few and comparatively low. This means that they are not often seen this year rising to a height of over 40,000 or 50,000 miles! We shall expect the corona to extend chiefly in the east and west directions at this time, perhaps for two or three diameters of the sun. There are generally interesting streamers issuing from the poles of the sun, suggesting the aurora borealis and implying an electro-magnetic origin.

"Photographs of the corona on a large scale will be made by Prof. O. J. Lee. The horizontal telescope to be used receives the sun's rays

from a plane mirror carried on a polar axis which is driven by a clockwork so that it follows the sun. The sun's diameter is 7 inches on photographs taken with this instrument.

"A part of the light of the corona is proved by the spectroscope to be due to an unknown gas to which the name coronium has been given. It has not yet been found on earth or in any other star than the sun.

"The region of the sky in which the sun is situated on any particular date is lying the reach of as-

tronomers for a period of several weeks, because of the brightness of the day. We do not know what has happened in that part of the sky, or in the immediate vicinity of the sun. Perhaps some comet has been circulating near the sun, or out beyond among the stars, some new object of great interest may have developed. For the few moments of a total eclipse, the sky becomes dark and we are able to photograph the region of the sun and that part of the starry sky beyond it. This must always be done, on the chances of finding something interesting that would otherwise be lost. Several cameras will be used for this specific purpose by the Yerkes party. In 1882, when the photographs were developed, a small comet was found near the sun, never seen before or after. In 1918, on the very day of the eclipse, but in the evening sky, a faint star flash-

ed out in an increase of forty thousand fold in its brightness. It was as wonderful a spectacle as the eclipse itself, being for a few hours the brightest star in the northern sky. If such an outburst should occur in that part of the sky beyond the sun, we should never know of it except on photographs taken at an eclipse.

"Weather indications at the station at Catalina have been favorable during the month of September in the past and thus far in August have been very promising."

Cleanup Notice.

All persons must collect their tin cans and place them in some receptacle in the alleys where they can be hauled away. Cans partly filled with water afford excellent breeding places for mosquitoes.

W. H. FISHER, Mayor.

JACK DEMPSEY ATTENDS STRICTLY TO TRAINING

(By the Associated Press)

SARATOGA SPRINGS, N. Y., Sept. 7.—Jack Dempsey's hobbies in his training camp are not so many or varied. The champion most of the time attends strictly to the business of getting himself into shape. But when he does "let go," he plays cards with his sparring partners or favored visitors, romps around the place like a school kid, plays with the many dogs he owns or puts in his spare time attempting to train some newcomer to his menagerie.

At Great Falls, Mont., where Dempsey conditioned himself for his Shelby match with Tommy Gibbons, a wolf cub was the recipient of most of the title holder's attention. At his present training camp he is attempting to win the affection of

a leopard cub that was recently sent him. His collection of dogs ranges from toy bulls to German police dogs. These canines are scattered all about the country. Many of them are in Dempsey's Los Angeles home, some are at Salt Lake City and others on a Utah ranch the champion owns. His manager, Jack Kearns, also finds kennel space in his Oakland, Calif., home for several of Dempsey's dogs.

Dempsey loves music. He carries a portable phonograph with him wherever he goes and puts it to constant use. On one of his trips to New York this year he arrived at his hotel without a hand bag, but with a phonograph in his hand. The champion's music tastes run to "blues" and jazz numbers.

Deer horns grow almost half an inch a day when replacing those lost in shedding.

The New 6-Cylinder Touring

\$1335

At Lansing Add Tax

DEVELOPED by nineteen years' experience, the 1924 line of Reo high-powered six-cylinder passenger cars more forcefully expresses the significance of Reo as "The Gold Standard of Values."

The rugged, powerful chassis is hung lower to the road for easier riding, greater safety and improved appearance. The double-frame mounting of power units,—long a distinctive Reo feature,—is maintained. So is the simple dual foot control.

Super strength marks the new rear axle, which combines the advantages of both the semi-floating and full floating types.

Greatly improved and oversized brakes with 15-inch drums and 2½-inch faces provide positive control; a simple, sure and safe design of time-tried goodness is assurance of continued efficiency.

Powered with the wonderful Reo 6-cylinder engine; nothing experimental nor untried. With intake valves in head and exhaust valves at side, positive lubrication and cooling systems and unusual accessibility, it provides dependable power for every driving condition.

Safety—reliability—comfort—economy—roadability—appearance,—on whatever factor motor car satisfaction is based, Reo dominates.

The Gold Standard of Values

AMERICAN THEATRE

Popular With The People

Monday and Tuesday

A battle of good against evil, raged through the great city and it was an innocent girl, driven from home by a self-indulging mother, who won it for right. Indeed justice uses strange weapons.

GOLDWYN
Presents

Leroy Scott's
THE
NIGHT ROSE

Directed by
WALLACE WORSLEY
